GoodHomes

“Swedish style has timeless appeal with its soft colour palettes of whites and off-whites and classical shapes, which can be used in both a traditional and contemporary setting for that typical Scandinavian look.”

Richard Roberts, managing director, Gustavian

Key to Scandinavian

- White floorboards and pale furniture
- Paired down style - elegant pieces that create a focal point in the room
- Discreet patterns, like soft stripes and florals

Frilled pattern edging on china will soften the plain Scandinavian look of the tableware.
